**Subject:** RE: Frank J. Doyle Site

Lou/Jim:

I talked with TCEQ (Elenor W.) and she indicated this site is in their corrective action group and she is the project manager. She indicated that they are having difficulty getting anyone to do anything. EPA apparently did a removal assessment in 1995 but the facility was still active. I am not sure if we did anything else after that (apparently no cleanup). I am not sure who you are going to be talking to next Wednesday but it would be a good idea to have TCEQ on the phone. I will send you her information when I get it.

Thanks

**Subject:** Frank J. Doyle Site

Lou:

This is what I found out.

Site Name: Frank J. Doyle Site  
SSID: 061D  
EPA ID: TXD980865109  
Location: Cottonwood Drive, Leonard, Fannin County, Texas  
Employee: Robert Sullivan

My suggestion is to call Chris Petersen and see if he can assist in locating the file on this site. I am not sure what may have been done. My assumption would be that we may have done a removal assessment but we will not know until the file could be located. This site came up once before but I don't know if anyone was ever assigned. Robert Sullivan is now an RPM. He was an OSC at the time this would have been looked at.

Thanks

Gary Moore
